KIRTESH RAVINDRA CHATUR

Computer Engineering Student | Software & Web Development Enthusiast

9130098025 | chaturkirtesh@gmail.com | linkedin.com/in/kirtesh-chatur-a98876386

PROFILE

Computer Engineering student with a strong academic record and a **9.0 CGPA**, possessing hands-on experience in frontend development and programming. Skilled in **HTML, CSS, JavaScript, Java, C, and Python**, with experience building practical web-based projects. Interested in exploring software development, web technologies, and emerging IT solutions through an internship.

EDUCATION

Padmabhushan Vasant Dada Patil Institute of Technology, Bavdhan, Pune

B.Tech. — Computer Engineering | 2nd Year, Semester III

First Year CGPA: 9.0 / 10

TECHNICAL SKILLS

- Programming: C, Java, Python, JavaScript
- Web Development: HTML5, CSS3, JavaScript
- Core Concepts: Object-Oriented Programming, Problem Solving
- Tools & Technologies: VS Code, Git, GitHub

PROJECTS

GeM Verify — AI-Powered Bid Compliance Verification Platform

- Developed a concept for an AI-powered platform to analyze government tender requirements and verify bidder compliance.
- Designed workflows for tender document analysis, requirement extraction, compliance checking, and report generation.
- Focused on improving efficiency and reducing manual effort in government procurement processes.

Bite Rush — College Food Delivery Website

- Developed a responsive food-delivery web application using HTML, CSS, and JavaScript.
- Implemented food ordering workflow, delivery address handling, payment options, UPI QR demonstration, and order tracking.
- Designed the interface with a focus on usability and responsive web design.

Personal Expense Management System

- Developed a web-based application for managing personal expenses and tracking available balance.
- Implemented transaction management and expense tracking using HTML, CSS, and JavaScript.
- Added functionality for exporting financial records for easier record keeping.

Personal Portfolio Website

- Designed and developed a personal portfolio website to showcase technical skills, projects, and achievements.
- Implemented responsive layouts, interactive sections, animations, and multimedia elements.
- Focused on creating a modern and professional developer portfolio.

HACKATHON & ACTIVITIES

Smart India Hackathon (SIH) 2026

- Participating as a team member in Smart India Hackathon 2026.
- Working on an AI-powered solution for improving bid compliance verification in government procurement.

Avishkar 2026

- Selected for Avishkar 2026 with the same AI-powered bid compliance verification project (GeM Verify).
- Representing the team in presenting the solution at the state-level research convention.

Cypher — College Cybersecurity Club

- Involved with the college cybersecurity club and interested in cybersecurity, ethical hacking, and technology.
- Contributed to planning and development of a professional club website.

CERTIFICATIONS

- Deloitte Cyber Job Simulation — Forage | July 2026

ACHIEVEMENTS

- 9.0 CGPA in First Year of B.Tech. Computer Engineering.
- Smart India Hackathon 2026 — Team Participation.
- Selected for Avishkar 2026 — State-Level Research Convention.
- *Add additional academic, technical, competition, or extracurricular achievements here.*
